

### Jan Vanbrabant new member of the Executive Board at ERBER AG

---

Getzersdorf /Lower Austria, 4 October 2016 – **Jan Vanbrabant, PhD became the new Director of Executive Board, Operations at ERBER AG on 1 October 2016. In this position he is responsible for the processes for the departments of Procurement & Production, Sales & Marketing as well as Infrastructure of the entire ERBER Group.**

The ERBER AG Board, Holding Company of ERBER Group (BIOMIN, ROMER LABS, SANPHAR, BIO-FERM and EFB), announces that Jan Vanbrabant, PhD (50) has taken up the position as board member of the Lower Austrian bio-technological company on 1 October 2016.

Jan Vanbrabant has been working for ERBER Group since 2009 and in his function as Managing Director BIOMIN Asia Pacific has significantly contributed to the development and the success of this region. After his PhD studies in Bio-chemistry/Microbiology at the University of Ghent (Belgium), he completed a bachelor's degree in Economics and an Executive MBA in Marketing.

His professional career has always been an international one. He has been an executive in pharmaceutical, as well as agricultural and biotechnological companies for more than 20 years.

In his new function, Jan Vanbrabant will be responsible for processes regarding Procurement & Production, Sales & Marketing as well as Infrastructure (Facility & Information and communications technology) of the entire ERBER Group.

#### **ERBER Group**

ERBER Group is a leading group of companies in the field of food and feed safety, with focusing on natural feed additives, feed and food analysis and plant protection with headquarters in Austria/Getzersdorf. It generated a turnover of about 280 million euros in 2015. ERBER Group consists of BIOMIN, ROMER LABS, SANPHAR, BIO-FERM and EFB. Including distribution partners. ERBER Group is represented in more than 120 countries worldwide. The international orientation, the in-house research and development are important success factors for the annual growth of ERBER Group.

ERBER Group is an expert organization and world leader in the original core business of mycotoxin deactivation. Powerful in-house research and development provides the basis for developing customer-focused and innovative solutions, which is particularly supported by collaborations with renowned universities and research institutions.

The company was founded in 1983 as "BIOMIN GmbH" by Erich und Margarete Erber in Pottenbrunn (Austria) and is still family run.
