

### Jan Vanbrabant new chairman of the board at ERBER AG

---

Getzersdorf /Lower Austria, 29 March 2017 – **Jan Vanbrabant, PhD (50) will take over the management of ERBER AG on April 1, 2017 and as the new chairman of the Executive Board he will be responsible for ERBER Group's future management and organization strategy.**

The ERBER AG Board, Holding Company of ERBER Group (BIOMIN, ROMER LABS, SANPHAR, BIO-FERM and EFB), announces that Jan Vanbrabant, PhD (50) will become chairman of the Executive Board of the Lower Austrian bio-technological company on 1 April, 2017.

Jan Vanbrabant has been working for ERBER Group since 2009 and in his function as Managing Director BIOMIN Asia Pacific significantly contributed to the development and the success of this region. Since October 2016, Jan Vanbrabant has been Director of Executive Board and in this position he was responsible for the processes for the departments of Procurement & Production, Sales & Marketing as well as Infrastructure of the entire ERBER Group.

After his PhD studies in Bio-chemistry/Microbiology at the University of Ghent (Belgium), he completed a bachelor's degree in Economics and an Executive MBA in Marketing. His professional career has always been an international one. He has been an executive in pharmaceutical, as well as agricultural and biotechnological companies for more than 20 years.

In his new function as chairman of the Executive Board, Jan Vanbrabant will be responsible for ERBER Group's future management and organization strategy worldwide.

#### **ERBER Group**

ERBER Group is a leading group of companies in the field of food and feed safety, with focusing on natural feed additives, feed and food analysis and plant protection with headquarters in Austria/Getzersdorf. It generated a turnover of about 290 million euros in 2016. ERBER Group consists of BIOMIN, ROMER LABS, SANPHAR, BIO-FERM and EFB. Including distribution partners. ERBER Group is represented in more than 120 countries worldwide. The international orientation,

the in-house research and development are important success factors for the annual growth of ERBER Group.

ERBER Group is an expert organization and world leader in the original core business of mycotoxin risk management. Powerful in-house research and development provides the basis for developing customer-focused and innovative solutions, which is particularly supported by collaborations with renowned universities and research institutions.

The company was founded in 1983 as "BIOMIN GmbH" by Erich und Margarete Erber in Pottenbrunn (Austria) and is still family run.
